

After 20 years of experience and a lengthy specialization in Belgian chocolate through continuing education in Belgium, "Toque du chef" was founded in 1994.

We specialize in pastry, chocolate, confectionery, ice cream, and catering ... as well as daily specials and home delivery services.

Our recipes, using only quality ingredients and traditional methods, have been tried, tested and perfected, and we're justifiably proud of our growing reputation.

Our custom cakes are the centerpieces of life's most important moments: births, first communions, bachelor parties, weddings, anniversaries, baby showers, graduations, Christmas, new year...

Engaged in providing excellent catering services and as per the demand of the client, we offer multi-cuisine options (Lebanese and international) with a variety of menu types based on the specificity of each season.

While offering these services we give prime importance to every minute detail, personal service and spectacular / hygienic food.

For your special occasion, you are no doubt seeking decorations that are elegant, stylish and unique; those, which will create a lasting impression on you and your guests.

We combines elegance with distinction to make sure that you are left with nothing less than enchanting memories of your special day.

Our aim is to work together with you, to create an event that is a truly distinctive reflection of your personal taste and style.
